DESCRIPTION

This multifunctional tactical fleece sweatshirt, featuring an innovative layout of functional panels, combines high- -quality, stretchy fleece with exceptionally durable ripstop fabric used on high-wear areas to enhance the garment's durability. The hoodie is designed in a longer, ergonomic 3D Silhouette COMFORT FIT cut with anatomical shaping around the elbows, which supports natural movement and high comfort when worn. During increased physical exertion, you will appreciate the underarm ventilation zips with mesh lining, which effectively wick away excess heat. The stand-up collar model features a full-length two-way zip with a chin guard and a fixed hood with a reinforced peak and adjustable circumference. The two-way zip allows the lower part of the hoodie to be unzipped separately. The shoulders, back yoke, elbows and functional parts of the hood are reinforced with durable ripstop fabric. The sleeves are finished with elasticated cuffs. The practical pocket layout includes 2 spacious front zipped pockets, 2 zipped pockets on the sleeves and a large zipped pocket on the back, accessible from both sides. The well-thought-out design, combined with multifunctional pockets and technically sophisticated details, makes this hoodie a product designed for demanding users. This timeless collection is complemented by the ARDON®ULTRITE®UNI range of leisure trousers and the ARDON®ULTRITE®GO! collection of functional T-shirts, offering endless styling possibilities across different styles.

This personal protective equipment is in conformity with the requirements of the following harmonised standard:

ČSN EN ISO 13688:2013 - Protective clothing, general requirements

The service life depends on the degree of use and the rate of wear in the given conditions. Improper storage conditions, improper maintenance and care shorten the service life. The warranty period is 24 months. In no case should the warranty period be confused with the service life of the product. With intensive use, the service life may be shorter than the warranty provided.
The product does not contain any substances in concentrations that are known or suspected of adversely affecting the hygiene or health of the user. However, skin irritation is not excluded for sensitive people, in which case do not continue to wear clothing. Avoid fire and sources of intense heat.
No accessories or spare parts are intended for these garments. If clothing is not in use, it is recommended to store it in a dry and well-ventilated area away from direct sunlight. Transport preferably in the original packaging, protect from moisture and extreme temperatures. At the end of the product´s life cycle, dispose of it in accordance with local waste disposal regulations.
