Description

This safety low shoe in a sporty design is ideal for logistics, warehousing, and light industry. Featuring a steel toe cap and a non-metallic composite midsole, it provides reliable protection against impact and puncture (S1PS). The black suede leather upper ensures durability and breathability, while the inner mesh lining enhances comfort during all-day wear. The rubber outsole with SR slip resistance and FO oil resistance is perfectly suited for smooth surfaces in halls and workshops. Thanks to its lightweight construction and casual look, this shoe is an excellent choice for workers who demand both safety and comfort.

NORMS

(EU) 2016/425

EN ISO 20345:2022+A1:2024

Personal protective equipment – safety footwear

Category:

S1PS SR FO ESD

Category	EN ISO 20345	
E – energy absorption in the heel area	✓	
FO – resistance to oils and fuels	✓	
A – antistatic footwear	✓	
SR – resistance to slipping on ceramic floor tiles with SLS and on steel floors with glycerin	✓	
WR – upper resistant to water		
Safety toe cap for toe protection	✓	
P – resistance to punctures (protective insoles)	✓	
The shoe do not contain metal parts		
HRO – resistance to contact heatup to 300 °C	✓	
HI – insulation of the bottom of the shoe against heat		
CI – insulation of the bottom of the shoe against the cold		
Splatters of molten metal		
ESD – shoe protects against electrostatic discharge and can be used on EPA premises
