DESCRIPTION

An outdoor low shoe designed for comfortable wear both in terrain and in the city, combining durability with comfort. The upper, made of durable Oxford fabric combined with PU and TPU elements, is strong, lightweight, and highly resistant to mechanical wear. The breathable textile mesh lining helps wick away moisture and maintains a pleasant climate inside the shoe even during longer walks. The removable insole made of mesh and poly material cushions impacts and increases comfort upon footstrike. The combined EVA and rubber outsole ensures reliable traction and stability on various types of surfaces. This model is ideal for everyday outdoor activities, traveling, and leisure time.
