DESCRIPTION

Working ankle boot with upper made of SPLIT NUBUCK material – split cowhide leather with TPU. The injected sole has SR anti-slip properties and is resistant to contact heat up to 300 °C (HRO). The K208 insole ensures increased comfort of the shoes, while the fibreglass toe cap and non-metallic anti-perforation textile midsole (S3S) provide reliable protection. The shoe features thermal insulation against cold (CI) and heat (HI), as well as a protective SC element (scuff cap) for enhanced durability.
